SHOWERED WITH LOVE

PAPER EDITION OF 395, 26" x 17", £595.

Showered with Love is a classic Doug Hyde image; two of his most iconic characters sheltering together under their shared umbrella looking typically cheerful despite the rain.

Doug says: "It is simple and I think the title sums up the image. Every dog lover will have experienced a walk where both they and the dog have got absolutely soaked by a downpour. Equally, I am very confident the vast majority of us dog owners shower our dogs with lots of love."

THE PERFECT CHRISTMAS GIFT

The Many Faces of Love is the latest addition to Doug's library of beautiful hardback collector's books. Its lavishly illustrated pages look at his key collections from over more than a decade alongside new works, new photography, and an insight into his future plans. It was first seen in The Box of Love, Doug's stunning collectors' gift box which was released in the summer, and Doug has responded to a barrage of requests to release it as a stand-alone item in time for Christmas.
