FABIAN PEREZ

This *spellbinding* new collection of limited editions resonates with *authenticity, sensuality* and *emotion*, and as always, is characterised by a passionate narrative style and an *intoxicating atmosphere*.

The tempo and cadence of the human figure is brought to life as his figures dance an intimate tango or share a moment of quiet conversation, while in the lone studies, there is always a beautifully conveyed sense of latent energy.

That 'other life' that Fabian refers to has been well-documented over the years, and all the hours he spent in the underground bars and nightclubs of Buenos Aires as a child have had an immense impact on his oeuvre. His work often represents his experiences

and memories, portraying an interesting cast of characters ranging from seductive and beautiful women to the enigmatic man in the dark suit based on his own father. In every piece there is a sensuality and intense personal passion, but these are communicated with beauty, style and technical brilliance.

Linking as they do to Fabian's past, they demonstrate that great artwork can emerge from unpromising beginnings, and the origins of the finest art are not always what we expect.
