LONDON | PARIS | NEW YORK

From romance to finance, from culture to couture - all life is here, in three of the world's most iconic cities. Each has a personality of its own and holds a unique position on the world stage; three stunning cosmopolitan centres that attract the business elite as well as the jet set, and also exert an irresistible pull on the world's artists.

One of the finest painters of the contemporary cityscape is London-based South American Henderson Cisz. Officially named as Artist of the Year 2007, Henderson captures the vibrancy and sheer pace of these famous streets in his stylish, high-impact interpretations of fashionable life in the 21st century.
